DATE MAILED: 02/22/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No.	Applicant(s)	
	10/755,477	TAKADA, KENICHI	
	Examiner	Art Unit	
	Adam C. Rehm	2875	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 07 December 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-20 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) 1-20 is/are allowed.
- 6) ☐ Claim(s) _____ is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 17 May 2004 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☒ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 1 and 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. It is not clear from the Specification or Drawings as to what part of the ray is a first part or a second part.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1, 3, 4, 10, 11, 15, 16 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by LINDAE ET AL. (US 4,800,467). LINDAE provides:

- A light source for emitting rays of light with an optical axis extending in a longitudinal direction (17);
- A reflector that reflects a first part of the rays of light forward (10);
- A projection lens positioned in front of the reflector (24, Fig. 1);

- A shade disposed between the lens and the reflector that shields part of the light reflected from the reflector (23); and
- A pair of opposed additional reflectors disposed face to face longitudinally thereby providing double reflection of a second part of the rays of light and redirection thereof toward the reflector, said additional reflectors disposed under the light source (34, Fig 1 and 35, see Column 2, Lines 54-66).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 2, 5-9, 12-14 and 17-19, are rejected under 35 U.S.C. 103(a) as being unpatentable over LINDAE ET AL. (US 4,800,467) as applied to claims 1 and 10 above, and further in view of GRAHAM (US 1,525,234). LINDAE discloses the claimed invention, but does not specifically disclose additional reflectors disposed face to face laterally or configured as paraboloids of revolution. However, GRAHAM teaches a concave reflector (4) arranged both laterally and longitudinally or orthogonally while having a parabolic relationship to the light source (Figs. 2 and 6) for the purpose of utilizing all the light emanating from a light source (Column 1, Lines 34-53). It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the vehicle headlamp of LINDAE to include the type of reflector as taught by

GRAHAM in order to direct light downwardly forward without producing glare or dazzle to approaching pedestrians or drivers.

Response to Amendment

4. The objection has been withdrawn.

Response to Arguments

5. Applicant's arguments filed 12/7/2005 have been fully considered but they are not persuasive.

6. Applicant argues that LINDAE fails to teach or suggest a pair of opposed additional reflectors disposed face to face with respect to each other, thereby providing double reflection of a second part of the rays of light and redirection thereof toward the reflector. However, a broad interpretation of the term "double reflection" reads on the LINDAE reference. Specifically and as previously noted, LINDAE discloses a pair of opposed additional reflectors disposed face to face with each other, thus providing a "double reflection" or "an amount [of reflection] that is twice as great as another." Due to a doubling of the reflectors, there is doubling of the light reflected with redirection thereof toward the reflector. The rejections are maintained.

7. Applicant argues that neither LINDAE or GRAHAM teach or suggest additional reflectors comprising paraboloids of revolution. However, GRAHAM illustrates a paraboloid of revolution in Figs. 2 and 6 wherein a surface (4) is obtained by revolving a parabola around its axis and the light source (5) is at a common axis (Fig. 6). The rejection is maintained.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Adam C. Rehm whose telephone number is 571.272.8589. The examiner can normally be reached on M-F 9-5:30 EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra O'Shea can be reached on 571.272.2378. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Art Unit: 2875

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
